

THE
You + Me
COLLECTION

SUEN

ABOUT

A ring inextricably linked with a love story of historic proportion, 'Toi et Moi' meaning 'You and Me' refers to a ring with two gems that sit close to each other. Ripe with sentimentality, not only do the two gemstones represent the union between two people, but the gemstones themselves also carry symbolic values of their own.

Beyond its symbolism, SUEN's You + Me collection illuminates one of the most alluring aspects of this style - versatility. Traditionally featuring two different gemstones of similar cuts and sizes, the collection playfully explores different combinations of colour, scale and shapes of gemstones. The result is a series of classic to contemporary pieces, each with its own narrative offering the wearer a completely unique jewel both in meaning and style.

As well as the love between two people, You + Me also celebrates the things that are meaningful to you whether that be significant life moments or important symbols we carry in our lives.

Discover You + Me exclusively at SUEN.
