ABOUT

Graceful and elegant with a distinct air of luxury, brooches possess the exceptional ability to make a personal statement in a delicate manner whilst transcending time and trends.

Our collection draws inspiration from Her Majesty Queen Elizabeth II's own seminal collection of brooches and pins.

Rarely seen without a brooch pinned to her brightly coloured dresses and coats at her many public appearances, her breathtaking collection includes personal gifts and inherited family heirlooms that boasts the most stunning pieces on the planet. These exquisite jewels were not only elegant outfit adornments but also sentimental pieces steeped in incredible royal history.

Our collection of brooches seeks to evoke the elegance, opulence and sophistication of the late monarch with its exquisite gemstones, delicate designs and impeccable craftsmanship.
